

LTN ENVIRONMENTAL CONSULTING LP

# STEWARDS OF OUR CULTURE & ENVIRONMENT

## WHY LTN ENVIRONMENTAL CONSULTING LP?

By pairing our unique knowledge of our Indigenous lands and waters, we develop tailored environmental solutions rooted in trust, open dialogue, and mutual best interests.

## ABOUT LTN ENVIRONMENTAL

**LTN Environmental Consulting LP (LTNE)** is an Indigenous-owned partnership between Lheidli T'enneh First Nation and EDI Environmental Dynamics Inc. to provide professional environmental consulting services.

Lheidli T'enneh are Carrier First Nation peoples and reside in what is known today as Prince George, British Columbia, and the surrounding region.

The word Lheidli means “where the two rivers flow together” and T'enneh means “the People.” LTNE is guided by our principles and value systems. We empower Lheidli T'enneh youth in environmental fields by creating capacity through the advancement of technical skills, increasing the transfer of Indigenous Knowledge from Elders to youth, and between Lheidli T'enneh to the scientific community, thus helping our people build meaningful careers.
